[Outline]

- **Who is The Urban Institute?**
- **Libelium Sensoren**
- **Darmstädter Verkehrsdaten**
- **Hackathon Thema**

[About the urban institute®]

[ui!] the urban institute® - is a leading software and consulting firm for solutions in the field „Smart City“, based in Chemnitz, Saxony, and operates subsidiaries in Walldorf, Baden, Berlin and New York City. Founded with the charter to closely assist the European Innovation partnership, **[ui!]** serves cities in Germany, in other European countries and in Australia in their efforts to use innovative concepts and solutions for the implementation of ambitious climate protection goals.

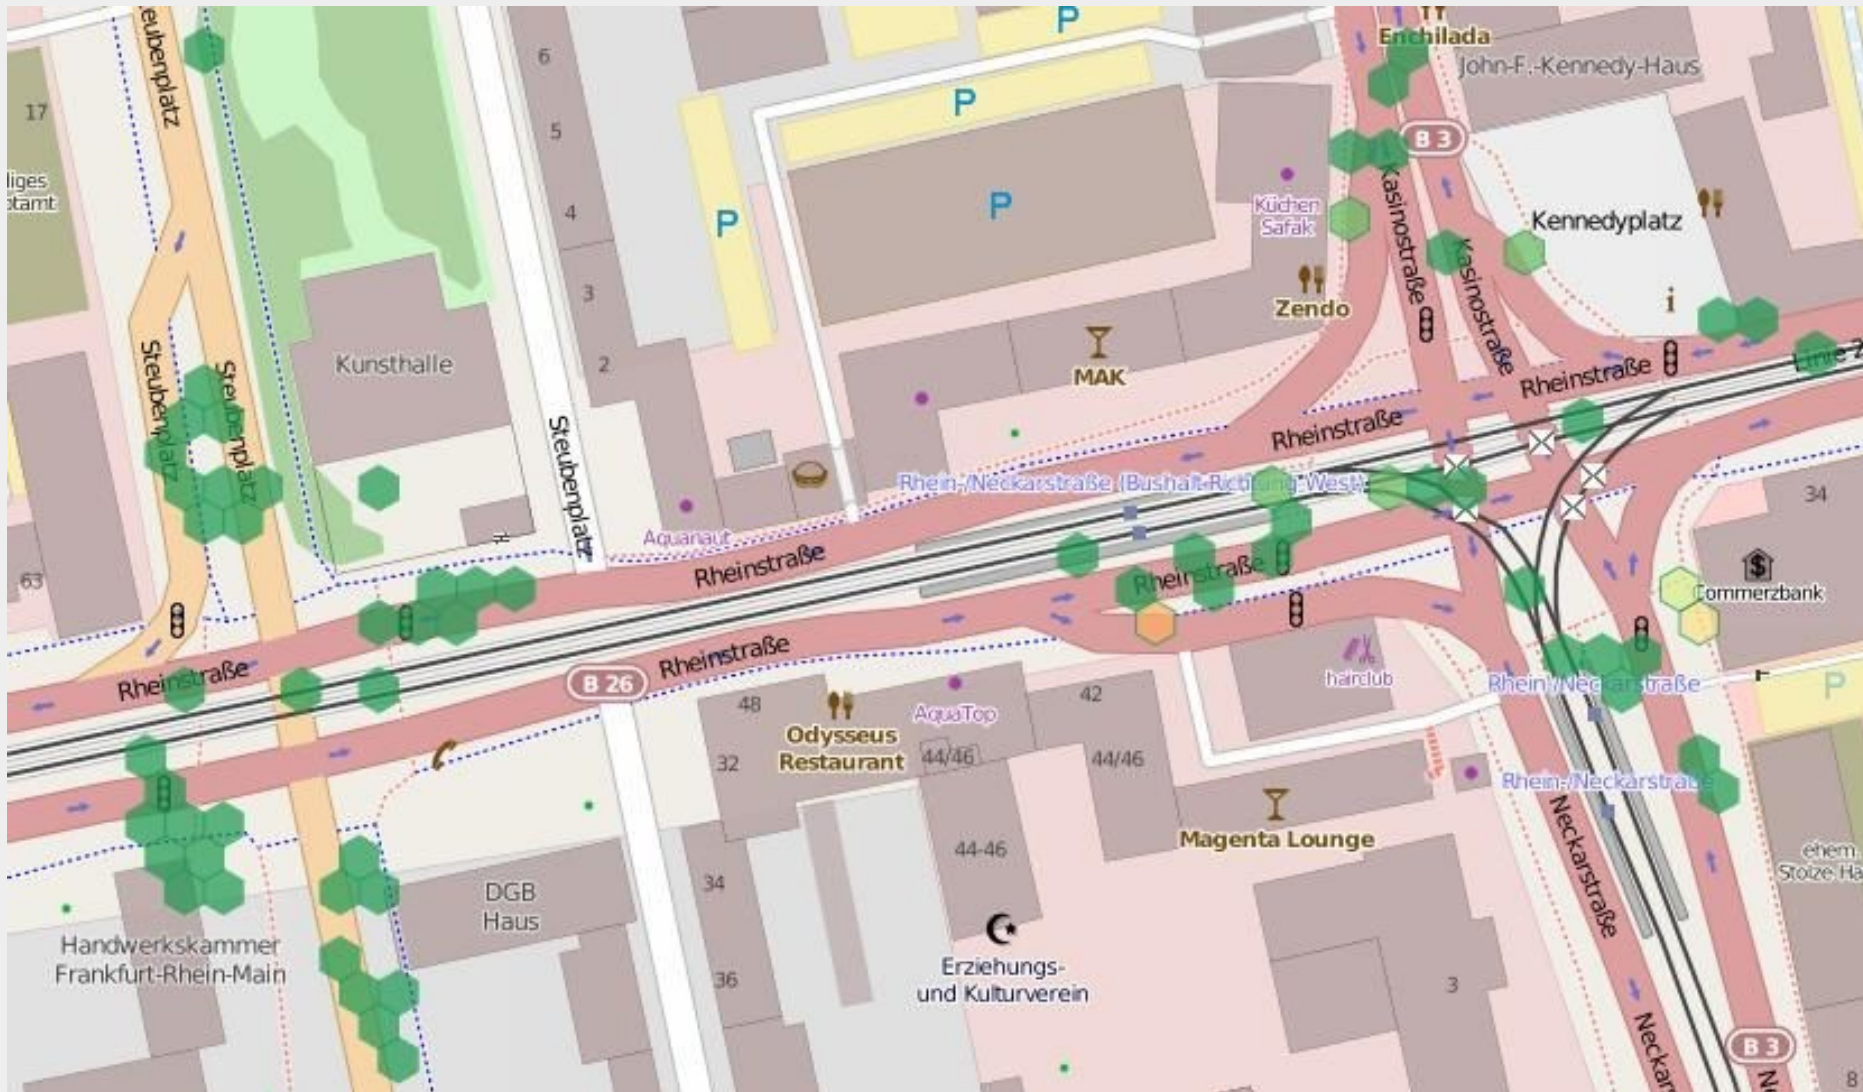

Climate protection, benefits for the citizenry, and economically successful services and solutions are not mutually exclusive but complement each other in a sustainable unit for the future of the urban space. Therefore,

[ui!] focuses on cloud-based services in the areas:

- ✓ **mobility,**
- ✓ **traffic,**
- ✓ **energy management,**
- ✓ **building automation.**

Libelium Plug and Sense: <http://www.libelium.com/products/plug-sense/>

Waspnote IDE: http://www.libelium.com/development/waspnote/sdk_applications/

- * Download IDE: Waspnote Pro v04 for your system
- * Contains everything to programm our SmartCity waspnote

Waspnote braucht **jeweilige Firmware** für Kommunikation!

- * WLAN Version: /waspnote/SmartCityWIFI4_HTTP/
- ** Sensor sendet an Mac; Mac pusht auf websocket
- ** websocket: 192.168.0.101:8282

- * 3G Version: /waspnote/SmartCity3G3_HTTP/
- ** PIN: steht auf Gerät

WLAN für Sensordaten

SSID: SmartCityHackathon

Key: 20326494

Websocket-Service: 192.168.0.101:8282

[Thema: How do you feel?]

18:00

23:00

Was haben wir?

Sensoren

- * CO2
- * Alkohole
- * Luftfeuchtigkeit
- * Schallpegel
- * Helligkeit

Euch

- * Müdigkeit
- * ???

**Wo wollen wir hin?**

Mündigkeit im Raum

- * Anzeigen der Daten
- * Korrelation von Müdigkeit mit Sensordaten
